

Parents have a great deal of influence in their children's decision to not drink alcohol. According to one survey, eight out of 10 youths named their parents as the leading influence in their decision not to drink at all or not to drink on occasion.

April marks Alcohol Awareness Month, and The Motherhood is joining The Century Council in their effort to Ask, Listen, Learn - sharing helpful information for parents and teachers as they initiate conversations with children early, before underage drinking problems arise.

Join this Twitter Party to learn the facts, become more aware and be prepared for when you need to have the talk with your tweens and teens.

Prizes! We'll be giving away prizes (TBD) to five winners! Winners will be chosen randomly from those who respond correctly to periodic trivia questions.

#TalkEarly
